

Confident Presence in English

Speak to be heard.

In everyday interactions and high-stakes moments.

2-Hour Workshop Live Online or Onsite

For Individuals and Teams Who Want to Engage Confidently and Effectively

This workshop offers a unique combination of **confidence-building insights** (INNER skillset) and practical **communication techniques** (OUTER skillset) — designed specifically for the confidence challenges non-native speakers face when **English** is the lingua franca.

This is not about language. It's about what you need beyond fluency.

Inner Skillset: CONFIDENCE

- Understand what real confidence is – and what it isn't.
- Recognize what disrupts it, especially in a foreign language, and how the disrupters undermine your presence.

Outer Skillset: PRESENCE

- Learn how to stop the confidence disrupters in their tracks and regain control.
- Practice strategies and techniques to share your thoughts with confidence and poise.

Includes: free 20-minute pre-workshop consultation | hands-on activities | participant materials.

Outcomes

Leave the workshop armed with research-based insights to build confidence and proven practical techniques to project poise. Apply them in your next conversation or presentation for confident presence in English.

Dr. Elke Framson
